

SAECCE Global Young Scientist Scholarship Program

Background

The SAECCE Global Young Scientist Scholarship Program, being an integral part of the China-SAE Congress and Exhibition (SAECCE), is dedicated to serving as a platform for young scholars worldwide to exchange key and frontier automotive technologies and building a bridge for international exchange and collaboration between China and other countries. This program awards scholarships to outstanding young scholars in automotive-related fields, supporting them to come to China to engage in SAECCE 2025, as well as technical tour, academic exchange and cultural tours.
